

2018 Eddies! Selection Committee

As the Network has grown, members have increasingly raised that it is challenging to digest the scope—and vote on—work happening across the country.

Therefore, this year, while members still drove the nomination process, **a selection committee made up of 14 state advocates and national partners will select the winner of each award**, with the exception of the Network's Most Valuable Player, which will be voted on virtually by Summit participants.

The Selection Committee includes both single-state and national organizations, broad representation across the ideological spectrum, ethnicities, and types of organizations.

SELECTION COMMITTEE MEMBERS
